
Environmental Policy

The Caledonia Group respects the environment and as such we will always conduct our services with primary concern for their environmental impact.

The Caledonia Group is committed to reducing the environmental impact of our business while providing high quality services to our customers. We will do this in a sustainable manner through continuous improvement in the environmental performance of our activities.

Caledonia Group will:

- Comply with all applicable environmental laws, regulations and standards.
- Identify, monitor and control environmental risks and performance.
- Act as an environmental responsible neighbour.
- Embrace a continuous improvement culture.
- Develop environmental objectives and targets for the business and assess these annually.
- Ensure that all personnel are aware of this policy, appropriately trained and encouraged to fulfil their environmental responsibilities.

As managers we will ensure the commitments of this policy and the environmental obligations of the company are met.
